**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

December 8, 2004

Sir:

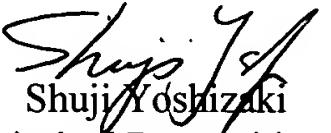

The Notice of Allowability mailed on October 1, 2004 explains the reason for allowance, stating that the terminus of the instantly claimed compound is an internal alkenyl group (page 3, line 11). Allowed claim 1 recites a compound having a first functional group and an internal alkenyl group, but does not recite that the terminus of the claimed compound is an internal alkenyl group. The compound is exemplified at page 10 of the specification. It is not shown that the terminus in these compounds is an internal alkenyl group. Therefore, the Examiner's statement should be corrected to read that the instantly claimed compound has an internal alkenyl group.
